

Aliaxis UK – Quality Policy

Aliaxis UK is committed to ensuring that its products and services always meet the requirements of its customers. It is committed to continually improving the efficiency and effectiveness of its business processes and management systems. Its goal is to achieve the highest level of satisfaction for all its interested parties and become the supplier of choice for Fluid Management Solutions. To achieve this, it will:

- Maintain, as a minimum requirement, the ISO 9001 Quality Management System as the framework on which to continually improve its quality performance.
- Comply with all product quality standards, approvals and other requirements relevant to its customers and consistent with the requirements of its business.
- Develop highly skilled employees who take responsibility for the quality of their work and promote a culture of 'right first time' within the organisation.
- Work in partnership with its suppliers to promote effective supply chain management to ensure purchased products and services are delivered on time and to the correct specification.
- Ensure the effective implementation of quality policies and procedures by providing appropriate information and training to its employees and encouraging their participation in business improvement activities.
- Establish quality targets and objectives at all levels of the organization, measure and report its performance against them.
- Use Continuous Improvement initiatives and activities to drive Quality Improvement.

The Quality Policy will be communicated to all employees and interested parties as appropriate. The policy will be reviewed periodically and updated as necessary.
